

7/8/2018

The Palestinian Working Woman Society for Development took part in a visit to the Representative Office of Venezuela in Ramallah, led by the Democratic National Committee, to show solidarity with the people of Venezuela. During this visit, PWWSD issued an aide-memoire condemning the US Administration for its crimes and attempts to assassinate the President of Venezuela. PWWSD General Director, Ms. Amal Khreisheh, reaffirmed her support of the people of Venezuela and her willingness to stand beside them in response to acts of aggression carried out by the US Administration against Venezuela and the US Ambassador's interference in the country's political and economic affairs. Post Palestine-Venezuela relations have indicated that Venezuela has held a leading role in assisting the Palestinian people on the road to victory under the provisions of International Human Law.
